## ENSURE CONSISTENT HIGH-QUALITY WELDS WHILE REDUCING DOWNTIME FOR MAINTENANCE AND REPAIRS

Tregaskiss® AW2 fixed automatic water-cooled MIG guns, also referred to as machine torches, are designed for dependable performance in high amperage, high temperature hard tooling welding applications.

Maintenance personnel appreciate the simplicity of the gun design with internal threaded connections that stay tight inside the anti-vibration compression fit body for good electrical connectivity. This leads to longer life and minimal replacement parts.

Choose from 9.25" (23.5 cm) or 12.25" (31.1 cm) barrel lengths to better reach the weld. Available with or without a cable, this MIG gun adapts easily to most applications.

## ACCULOCK™ R (ROBOTIC) CONSUMABLES

Eliminate contact tip cross-threading issues with new AccuLock™ R consumables. These new consumables are designed for increased tip life, which can reduce replacement frequency and related downtime. AccuLock™ HDP contact tips can increase life by an additional 10x or more in pulse welding applications. In most cases, your current tip and diffuser can be replaced with no impact to Tool Center Point (TCP), making this upgrade low effort, low risk, and high payoff.

# MEASURING BARREL LENGTH AND CABLE LENGTH

## WATER-COOLED AUTOMATIC WITH CABLE

## WATER-COOLED AUTOMATIC WITHOUT CABLE

Functional gun length will vary with your choice of consumables. Front end consumable combinations other than the standard consumables can introduce a gun length variance of  $\pm 0.25"$  (6.4 mm). Tolerance on assembled cable length is  $\pm 2"$  (50.8 mm). Length will vary depending upon power pin used.

# ACCESSORIES

## TOUGH GARD ANTI-SPATTER LIQUID

This ready-to-use water-soluble, non-toxic product creates a sacrificial surface that reduces spatter adhesion. This prolongs the life of your consumables and minimizes downtime due to nozzle cleaning which can help reduce your operating and maintenance costs.
