

Issued January 2025 · Index No. TT4/1.9

APPLICATIONS	Automotive General Manufacturing & Fabrication
DIMENSIONS	L: 13.74" (349.0 mm)* W: 10.36" (263.2 mm)* H: 22.18" (563.4 mm)* *Base unit only. Optional features may change weight and dimensions
WEIGHT	≈41 lbs (18.6 kg)* *Base unit only. Optional features may change weight and dimensions
RATED INPUT/OUTPUT	24 VDC

POWER THROUGH WELD SPATTER FOR INCREASED UPTIME AND WELD QUALITY

TOUGH GUN® TT4A (analog) and TT4E (ethernet) nozzle cleaning stations maximize uptime through superior cleaning performance, high durability components, and features that allow quick and easy maintenance. You'll spend less time maintaining and troubleshooting your robotic welding equipment and more time getting product out the door as your orders increase.

These reamers power through the toughest spatter with a .95HP motor and 236 lbs. of lifting force at 95 psi. Automated cleaning improves gas flow for reduced weld porosity, rework and scrap in robotic applications.

KEEP YOUR WELDING OPERATION UP AND RUNNING FOR EXTENDED PERIODS OF TIME WITH HIGH PERFORMANCE COMPONENTS:

- Powerful, lubricated motor lasts up to 18M cycles at 80+ psi
- Durable valves and cylinders rated for 10M+ cycles
- Wire cutter can run 1M+ cycles without requiring maintenance

NEW STANDARD FEATURES REDUCE DOWNTIME, SAFETY INCIDENTS AND COSTLY WELD DEFECTS RELATED TO ANTI-SPATTER:

NEW ANTI-SPATTER RESERVOIR (COMES STANDARD)

- A tethered cap and easy-clean filter help prevent anti-spatter contamination which can lead to weld quality issues
- Larger 20-oz capacity increases uptime between refills NEW LOW FLUID LEVEL INDICATOR (COMES STANDARD)
- Sends a signal to the PLC / robot when anti-spatter is running low NEW SPRAY CONTAINMENT UNIT (COMES STANDARD)
- Reduces slip / trip hazards and minimizes cleaning downtime costs
- Easy to remove and clean

COMPONENTS (CONTINUED)

SPRAY CONTAINMENT — Now Standard!

Improve the working quality of the cell environment. Helps keep areas dry and maintains the cleanliness of the cell. Spray containment ensures anti spatter is captured in an enclosed basin.

TT4-SC-100 TOUGH GUN® TT4 Reamer Spray Containment
TOUGH GUN® TT4 Reamer Spray Containment Hose

MOTOR LUBRICATOR — Now Standard!

This dedicated motor lubricator maximizes performance and protects your investment by extending the life of the motor, and is highly recommended for use in damp and moisture rich environments. Factory set for optimal pneumatic oil lubrication, now standard.

TT4-2250 TOUGH GUN® TT4 Reamer Motor Lubricator with Fittings

RESERVOIR — Now Standard With Double the Fluid Capacity!

Reservoir mounts directly to the reamer frame for increased durability and protection. All reservoirs contain a built in low fluid level indicator which alerts operators when anti spatter fluid is running low. Includes tethered cap and a removable filter.

TT4-1320 TOUGH GUN® TT4 Reservoir with Wire Connector

ADDITIONAL OPTIONS

WIRE CUTTER

The TOUGH GUN® Wire Cutter from Tregaskiss® removes the ball at the end of the welding wire to provide smooth arc starts and consistent wire stick-out (ideal for Touch Sensing). This system cuts a variety of wire types, including stainless steel, aluminum and flux-core, in sizes up to 1/16" (1.6 mm).

WC-400 TOUGH GUN® Wire Cutter

WC-400C TOUGH GUN® Wire Cutter with shroud (recommended for use in cobot welding applications)

NOZZLE DETECT

Nozzle Detect for the TT4 Reamer uses a proximity sensor mounted on the side of the reamer that can be used independent of the ream cycle. The robot positions the front end of the MIG gun close to the sensor to detect the presence of the nozzle. If the nozzle is present, a signal is then sent back to the robot controller or PLC.

A nozzle detect system can help alert maintenance personnel that the nozzle is no longer present before a weld is attempted. This helps to reduce rework and scrap caused by welding without a nozzle.

TT3E-2344 Proximity Sensor for Nozzle Detect

519-2 8-pin, 5m cordset

ACCESSORIES

Tregaskiss® provides a competitively priced, simple fixed height durable stand for all TOUGH GUN® TT4 Reamer models. TOUGH GUN® reamer stands are available in heights between 18 and 36 inches in 6-inch increments.

RST-18	18-inch height
RST-24	24-inch height
RST-30	30-inch height
RST-36	36-inch height

TOUGH GARD® MULTI-FEED SYSTEM

Eliminate the need to frequently refill sprayer reservoirs with the TOUGH GARD® multi-feed system from Tregaskiss®. Feed up to 10 TOUGH GUN® reamer units from a single 5-gallon or 55-gallon drum of TOUGH GARD® anti-spatter liquid.

- All TOUGH GUN® TT4 reamer units are multi-feed ready by removing the sprayer reservoir and adding a multi-feed plate
- Can be gravity fed by elevating the position of TOUGH GARD® liquid source
- Does not require a pump or power
- · A low fluid-level indicator displays when pail or drum requires refilling
- · Quick-connects allow fast and easy connection to nozzle cleaners
- Increased safety eliminates the need for operators to enter robotic cells if pails or drums are located outside
- Each circuit has a dedicated check valve to reduce the risk of poor connnections causing leaks

TOUGH GARD® MULTI-FEED ADAPTER

TT4-MF-100 Multi-Feed Adapter

TOUGH GARD® MULTI-FEED SYSTEM

TG-103-05-2 for 5 Gallon Pail (up to 2 Reamer Units)
TG-103-05-10 for 5 Gallon Pail (up to 10 Reamer Units)
TG-103-55-10 for 55 Gallon Drum (up to 10 Reamer Units)

TOUGH GARD® MULTI-FEED SYSTEM HOSE (sold separately)

TG-103-100 100' Multi-Feed Hose (UV Rated)
TG-103-200 200' Multi-Feed Hose (UV Rated)

REAMER TEST BOX

Troubleshoot your TOUGH GUN® TT4A (analog) reamer robotic nozzle cleaning station quickly and easily with the reamer test box. This test box comes with a 6-foot, 5-pin cordset which allows you to test your reamer from a safe distance to troubleshoot the

following:

Anti-spatter liquid fluid level signal

Ream cycle

Wire cutter operation (if equipped)

SINK/SOURCE function(s)

Nozzle detect function (if equipped)

RT-1000 Reamer Test Box

ACCESSORIES (CONTINUED)

TOUGH GARD® ANTI-SPATTER LIQUID

This ready-to-use water-soluble, non-toxic product creates a sacrificial surface that reduces spatter adhesion. This prolongs the life of your consumables and minimizes downtime due to nozzle cleaning which can help reduce your operating and maintenance costs.

TG-101-14S	16.9 fl. oz. / 500 mL
TG-101-32SP	32 fl. oz. / 946 mL (spray bottle)
TG-101-01	1 U.S. Gallon / 3.78 L
TG-101-05	5.28 U.S. Gallon / 20 L
TG-101-55	55 U.S. Gallon / 208 L

FILTER/REGULATOR

The Filter/Regulator unit from Tregaskiss® is another recommended accessory that helps extend the life of your TOUGH GUN® TT4 Reamer. Must be ordered separately.

The filter cleans the air supply to the reamer and restricts debris from reaching the motor, keeping it uncontaminated and ensuring maximum performance and longer life. The regulator works to ensure optimal air pressure is achieved at the unit.

TT-FR-SMC Filter/Regulator
